The following Suggestions are submitted for favour of consideration:-

① The definition of the expression "Town Municipal Council" seems unnecessary. Under the existing Regulation, there are two classes Municipal Councils, viz city Municipal Council and Town Municipal Council. under the Bill, there will be 3 classes:- city Municipal Council, Minor Municipal Council and any Town Municipal Council the first is defined and power to constitute it is vested under S 181: the 3rd class (Minor Municipal Council) is defined, and power to constitute it will be obtained under S 186 the rest from the ordinary class and it seems unnecessary to define it. further no additional Section is framed for enabling Govt to constitute certain Municipalities as Town Municipalities. S. 4 only empowers Govt to constitute a certain area as a Municipality. (Vide for analogy S 181 & the proposed Section 186).

3 classes were deliberately proposed by the L.B. Committee & I would retain it as at present-
M. K

This provision should be applied only to Municipalities in an advanced stage of development. Power enabling Govt to constitute certain Municipalities as Town Municipalities may be useful.
M. K.

11.

② The definition of the term 'Minor Municipal Council" may be redrafted thus:-

"Minor Municipal Council" shall mean a Council which has been

NOTE—Contn. sheet.

declared under Subsection 1 of Section 186 a Minor Municipal Council and which has not ceased, under Subsection 2 of S. 181 to be a Minor Municipal Council."

2nd The reference to S.4 seems inappropriate as under it only the area ceases to be a Municipality. A Minor Municipal Council may cease to be a Minor Municipal Council, but may become a City Municipal Council or the Town Municipal Council without ceasing to be a Municipality. A provision corresponding to S 181 (2) may accordingly be drafted and placed in S 186, the present clause 2 being numbered as (3).

13

(3) In regard to the amendment of S. 10, the following draft is suggested in lieu of the existing one

"In proviso to Subsection (1) of S 10, the words "two months and one half" shall be added after the words "one-third", and the words "in minor, city, and other Municipal Councils respectively" after the words "unless the aforesaid

14

(4) The proposed S. 25A and Chapter XIII overlap one another. If S. 25A is passed as it now stands most of the provisions

of chapter VIII become unnecessary. Further S. 25A will apply virtually only to the so-called Town Municipal Councils, and is specially extended to the Minor Municipal Councils. Instead of having two sets of identical provisions overlapping one another, a simple additional Section may be added at the end of chapter VIII.

15) "All or any of the provisions of this chapter may be made applicable to any Municipal Council may be applied to any other Municipal Council by the Governor by a notification published in the Special Gazette."

Copies sent to M. H.

16)

(5) In regard to the amendment of s 59, it is respectfully submitted that according to practice and precedent, the Sanction of the Council is generally obtained for legislation, before the drafting is ~~generally~~ done in the Legal Dept. The Local Self Govt. Order does not refer to this point specifically. If approved, this may be specially considered at the meeting when ~~the~~ Orders are passed for placing the Bill before the Legislative Council.

The meaning is not quite clear to my mind. To obtain the consideration of the Council as proposed — M. H.

17)

(6) Of the two alternatives proposed in regard to the Minor Municipalities, the first may,

Chapter or Section must be mentioned. ~~may~~ ~~be~~ ~~made~~ ~~applicable~~

if approved be prepared showing more clearly and comprehensive than the Second. Change in the Schedule will involve fresh consideration by the whole Legislative Council and the procedure will be cumbrous.

(7) The Statement of Objects and reasons may be made more clear by expressly explaining the changes made in each of the Sections

25) I am not sure if an additional section is necessary. Section 4 read with the definition of " Town Municipal Council " (which the Asst. 26) The Asst. However, I have no objection to the Asst. Secretary's drafting if it is considered clearer.

inserting the words " other than a City Municipal Council for which separate provision is made in Chapter XIII" ~~in~~ after " Any Municipal Council" in section 25 A. The amendment proposed by the Asst. 28) The additional section may perhaps form a separate chapter by itself if this drafting is considered clearer.

Not very essential Legs may consult Chief Secy ARB

Para 6.

29) If the 1st alternative is adopted, then it seems to be desirable to frame a list of sections which will be ordinarily applicable to minor municipal councils and keep them ready; otherwise this will have to be done in Branch IV under pressure after the notifications relating to ~~the~~ municipalities are published in the Gazette

I agree ARB 15/5

32) Further note on the question of adopting the two alternatives regarding minor Municipal Councils.

33) In the second alternative, discretion is given to Govt to adopt the existing sections with suitable amendments in the case of minor municipal Councils; but there is not so in the 1st alternative.

34) I wont suggest that this discretion may also be enbodied in the draft Section 187 (1). This will render the application more elastic

59) According to the generally accepted method of legislation - this Bill ought to deal with Change of land - alone in character - together - in one bill. It has therefore been proposed to deal with all constitutional & other Changes under the L.S.G. Act scheme in the draft bill now worked up.

57) As regards Ch. my reason is that the intention to deal with these amendments in one bill should be adhered to. It would be inconvenient to withdraw the Change from miscellaneous Chapter in this bill. Further there is no urgency about them as there is for bringing them into force on 1st April as concerned - they can well be taken up in another bill - later on - after the rush of business now in hand is over.

under S. 23 of the Municipal Regulation, the President & Vice President must be selected from amongst the Councillors, and in the case the Government direct them to be elected instead of being appointed, then the election should be made by the Municipal Council. 79) ~~83~~ The proportion of elected to nominated members in City and Town Municipal Councils has been changed as indicated in the margin, in the Amended Municipal Reg^n. The term of office of elected Councillors is regulated by Sec 17 & 18 of the present Reg^n, and ~~all~~ all members elected thereunder hold office for three years, or specified terms in the case of vacancies under Sec 18. In order however to change the present proportion to satisfy the Amended Reg^n or to provide for increasing the total strength of the Councils during the term of an existing Council, it has been found necesary to increase the elected members during the continuance of the existing Councils. And it is also necessary to

	Present - elected : nom.	Future
City Councils -	$\frac{1}{2} + \frac{1}{2}$	$\frac{2}{3} + \frac{1}{3}$
Town -	$\frac{1}{3} + \frac{2}{3}$	$\frac{1}{2} + \frac{1}{2}$

provide that the term of these new Councillors is co-terminous with that of the existing Councillors, and does not extend to three years.

(5) As the present sections 17 or 18 do not provide for elections other than general elections or certain vacancy elections it is an amendment of the said sections is found necessary.

Dear Mr. Narasimhan

I prefer the addition to Sec 18, as it seems to meet the wishes of the 2nd member as nearly as possible - If that is approved it may be worked up in the Legve Branch.

Final Note by the Second Member of Council.

Subject:— Bill further to amend the Mysore Municipal Regulation, 1906.

In my Final Note dated the 6th June 1917, I solicited the sanction of His Highness the Maharaja to place the Bill which was drafted to give effect to the Government order of 16th November 1916 on the scheme for the development of Local Self-Government in Mysore, before the Legislative Council. His Highness' approval thereto having been received on the 11th June 1917, the Bill was read in Council on the 29th June 1917 and referred to a Select Committee. The report of the Select Committee was considered in Council on the 28th September 1917 and the bill as amended by them together with a further amendment of section 23 moved by me in accordance with the resolution of the Council on the 27th September, was adopted by the Legislative Council on the 28th idem. Sanction of the Government of India to pass the Bill into law was thereupon applied for and obtained from the Residency on the 7th January last and as it was proposed to further amend section 18 to specifically determine the term of Councillors appointed under the new scheme, at a final stage an amendment was moved as Government amendment with the sanction of the Government of India and duly passed in Council. A copy of the Bill as finally passed by the Legislative Council is in the file.

A petition sent by Mr.Basaviah, B.A.B.L., a non-official member of the Legislative Council requesting that in the bill further to amend the Mysore Municipal Regulation the principle of communal representation should be conceded

in full and that the opinion of the Council may be taken on the basis of the different communal interests or that all papers may be submitted to His Highness - was considered by the Council and ordered to be filed. This petition is placed in the file. A separate note is attached on the subject of communal representation urged in this petition and also before the Council.

102) The Local Self-Government Conference and the several Municipal Councils of the State have, from time to time, proposed other amendments relating to municipal administration in general but it was considered convenient to deal with all constitutional and other changes due to the Local Self-Government scheme in the present legislation and to leave all the other amendments of a miscellaneous character for further consideration later. This question was discussed in the Dewan's minute dated the 30th May 1917 and that of mine dated 3rd June 1917 together with the Dewan's final orders dated 4th June 1917.

103) A copy of the original draft Bill, copy of the report of the Select Committee thereon, copy of my speech before the Legislative Council made on the 29th June proposing that the Bill be read in Council, a copy of my speech dealing with the Select Committee's report made on the 28th September and lastly, a copy of my speech before the Legislative Council on the 21st February 1918 moving that the Bill be passed, are placed in one file for facility of reference. They give all the information necessary on the subject of this legislation in all its bearings. Any further information on the subject of communal representation which was raised at the very last stage in the Council and in respect of which, no amendment of any kind was proposed either at the Select Committee or during the second stage of discussion in September last, will be found in the separate note attached hereto. This Note is likewise applicable to the Local Boards and Village Punchayets Regulation.

The

104 The sanction of His Highness the Maharaja is now required to promulgate the Bill into law and it is respectfully suggested that in giving His Highness' assent, the date from which the Bill is to come into operation may be fixed as the 1st of July 1918 so as to admit of some interval to enable the existing as well as the new Municipal Councils to constitute themselves according to the amended Regulation.

MEMBER OF COUNCIL.

26 3 18

Submitted to His Highness.

105) I submit herewith a Final Note by the Second Member of Council on the subject of the promulgation of the Bill further to amend the Mysore Municipal Regulation of 1906. The Bill was placed before the Legislative Council in June 1917 and referred to a Select Committee which scrutinised it carefully and made suitable changes. It received the assent of the Government of India in January 1918 and was passed by the Legislative Council the 21st February 1918.

106) 2. In his speeches delivered before the Legislative Council as well as in the notes, the Second Member of Council has dealt exhaustively with all aspects of the Bill and there is very little to add to what he has stated. I shall refer only to a few salient points which require some explanation before His Highness' sanction is accorded to promulgate the Bill into law.

107) 3. The two Bills amending the Municipal Regulation and the Local Boards Regulation passed by the Legislative Council are entirely based on the Government order dated 16th November 1916 on the Local Self Government scheme which received His Highness' approval on 13th November 1916. The subjects dealt with in the order have been before the public and the Government for quite a long time and opportunities were not wanting to any section of the public for placing their views on any of the questions involved before Government. Many of the decisions of Government embodied in the order, including important items, such as transfer of Mohatarfa to local bodies and abolition of Local Funds General, have already been given effect to. Only those items that required legislative sanction are included in the two Bills now submitted.

4. Most of the provisions contained in the Municipal Bill are beneficial and the opposition in the Legislative Council, on the part of three or four members, centred practically round clause 3 which - increases the strength of the elected element to two-thirds in the case of the City Municipalities, half in town and one-third in minor municipalities. It was stated that this provision would tend to accentuate the preponderance already enjoyed by a particular community and that it was therefore unsafe to entrust the Municipal Councils with any enlarged powers. It was suggested that a special clause be inserted in the Bill providing for the adequate representation of all communities. The merits of this subject are fully discussed in Mr. Banerji's separate note on Communal Representation. I do not propose to enter into this controversy unless His Highness is particular that I should go into all the details. I agree generally with the conclusions of the Second Member of Council. I would add that in case the fears expressed by some of the members came to be realised, Government have ample provision under the existing Municipal Regulation to take effective remedial steps to redress any inequalities. No provision for Communal Representation such as the one suggested is found in any of the Municipal enactments in British India and no sufficient grounds have been adduced why we should make ourselves unique in this respect. I am therefore of opinion that no valid reasons have been shown for withholding sanction to the Bill which has, after prolonged consideration, passed through all the stages in the Legislative - Council.

5. I solicit His Highness' gracious sanction to the promulgation of the Bill into law with effect

NOTIFICATION.

No. 80—L. C., dated 14th August 1917.

Under Rule 40 of the Rules for the conduct of business of the Mysore Legislative Council, the following Report of the Select Committee appointed to consider the Bill further to amend the Mysore Municipal Regulation, 1906, together with the Bill as amended by them is published for general information.

By Order,
J. SREENIVASA IYER,
Secretary, Mysore Legislative Council.

Report of the Select Committee on the Bill further to amend the Mysore Municipal Regulation, 1906.

We, the members of the Select Committee, appointed to consider the Bill further to amend the Mysore Municipal Regulation, 1906, have carefully considered the Bill and have the honor to submit the following report on the Bill.

The following are the chief alterations made by us in the various clauses of the Bill:—

Clauses 1 and 2.—Section 3 being the proper place where expressions used in the Regulation have to be defined, we have inserted a definition of the expression "Town Municipal Council" in Section 3 and omitted the proposed new clause in Section 9.

Clause 4.—In the Local Self-Government Order of November 1916, it is stated that "in City Municipalities the alternative of full time paid President who may not necessarily be an official should be provided for in the Regulation."

We agree that this principle should be adopted only wherever it is found to be absolutely necessary, but we do not see why the provision should apply only to the

case of City Municipalities or the office of Presidents alone. We have accordingly redrafted the clause and at the same time provided for cases where the services of an officer of Government are placed at the disposal of a Municipality for employment as President or Vice-President.

The clause as amended reads as follows :—

"The President or Vice-President of any Municipal Council may receive out of the Municipal Fund such monthly salary or allowances as such Municipal Council may sanction from time to time with the approval of Government. Provided that it shall be lawful for any Municipal Council to pay out of the Municipal Fund, with the sanction of Government the salary of any Government Officer whose services are lent for employment as Vice-President or President."

Clause 5.—This amendment of Section 46 was considered unnecessary and so we have omitted it.

Clause 6.—We consider that Government should have power to frame rules in regard to the management of the institutions transferred to the Municipalities and have accordingly inserted the words "in accordance with such rules as Government may frame in this behalf."

Clause 7.—We do not recommend the increase in the rate of tax on buildings from 6 per cent to 8½ per cent as proposed in the Bill, as the existing rate of 6 per cent itself has not been reached in any of the existing Municipalities, and as the additional tax of *Octroi* is being already levied in the Municipalities. We, however, agree that the existing mohatarfa shop tax should be abolished, and that profession taxes at rates not exceeding those specified in the Schedule attached to the Madras Act should be substituted in Schedule III of the Appendix.

Clause 8.—In addition to the amendment proposed in the Bill, we consider that an amendment should be made in the section to provide for the budget estimates of the City Municipal Councils being submitted direct to Government instead of through the Deputy Commissioner. Under the Municipal Act of 1871 the practice was for the President to submit such estimates direct to Government and to correspond without the intervention of the Deputy Commissioner. The law was changed in this respect by the Act of 1906. We consider that the law as it stood under the old Act of 1871 should be revived, and that the powers of control of the Deputy Commissioner under Sections 173, 174 and 175 should not be exercised in respect of such Municipalities without the express orders of the Government.

We have accordingly amended the Sub-Section 2 of Section 169 as follows :—

"(2) The Municipal Council shall thereupon decide upon the appropriations, and the ways and means contained in the budget of the year to commence on the 1st July next following. The budget as passed by the Municipal Council shall, *except in the case of City Municipal Councils*, be sent to the Deputy Commissioner, who shall submit the same to the Government with his remarks, if any ; *and in the case of City Municipal Councils the budget shall be submitted direct to the Government*; and it shall be competent to the Government to sanction the budget with such modifications as it deems fit. The budget so sanctioned may be varied or altered from time to time as the circumstances may render desirable at a special meeting of the Council called for the purpose, and subject to the sanction of Government, *in cases, if any specified by it.* No expenditure shall be incurred unless provided for in a budget so sanctioned, or varied or altered."

We have also added a new clause 180 A, as follows :-

"180A. The Deputy Commissioner shall not exercise the powers conferred on him by Sections 173, 174 and 175 in regard to City Municipal Councils except under the special orders of Government."

Adopting the same principle a consequential amendment is made in regard to the submission of resolutions through the Deputy Commissioner under Section 24 (I) (*d*). The amendment of the clause will be as follows :—

"It shall be the duty of the President of a Municipal Council to (*d*) furnish to Government in the case of City Municipal Councils, and to the Deputy Commissioner in the case of other Municipal Councils..... ....."

Clause 9.—This amendment in the heading of Chapter XIII is considered unnecessary and is omitted.

CHAPTER XIV.

Section 187 (1).—Under the clause as it now exists the provision will be deemed applicable only to existing Municipalities and not to those proposed to be newly constituted. We have accordingly added the words "existing or proposed to be constituted" after the words "any Municipal Council" in the first sentence, and substituted the words "such" for "the municipal" after the words "by notification in the official Gazette declare."

We are also unanimously of opinion that the procedure prescribed in Section 8 should, as far as possible, be adopted whenever any Municipality is changed from one class to any other class, so that on opportunity may be given for urging any objections that the party affected may deem fit to make. We have accordingly added a new section as Section 8A to the following effect:—"8A. Before any City, town or minor Municipal Council is changed to any other class of Municipal Council, the Government, shall, as far as may be, follow the procedure prescribed in Section 8."

NOTE OF DISSENT BY MR. K. R. SREENIVASA IYENGAR.

Clause 8.—I regret I have to dissent from the view of the majority in respect of the amendment proposed to Section 24 (1) (*d*). I am of opinion that the Deputy Commissioner as the Chief Executive Officer of the distirct and the agent and representative of Govenment responsible for the general administration of the district should be kept informed of the proceedings of all the Municipal Councils in his district, so that even if he cannot himself directly interfere with any of them, he may, in case of necessity, lose no time in moving Government for taking action in the exercise of the powers specified in Sections 173, 174 and 175 of the Regulation.

K. R. SREENIVASA IYENGAR.

NOTE OF DISSENT BY MR. M. BASAVA IYA.

In the light of my remarks during the discussion of the Bill to amend the Mysore Municipal Regulation, VII of 1906, and in the Select Committee appointed to consider the Bill, I have the honour to submit the following report on the Bill.

(1) Clause 4 of the Bill, as in the Local Self-Government Order of November 1916, provides for a full time paid President in City Municipality who may not necessarily be an official. But without such a provision the Mysore City Municipal Council has now a paid official President, who has held office as such for over two years. The Select Committee adopts the principle of appointing a paid President, whether official or non-official, wherever it is absolutely necessary, and to blend the City Municipalities also into one category so far provides that the President or Vice-President of any Municipal Council may receive out of the Municipal Fund such *salary* or allowances as such Municipal Council may sanction, etc., provided that it shall be lawful for any Municipal Council to pay out of the Municipal Fund, with the sanction of Government, the salary of any Government Officer, whose services are lent for employment as Vice-President or President. This would necessarily give the opportunity to all Municipal Councils to take advantage of the spirit of the Local Self-Government Order, and to appoint a non-official President or Vice-President and yet allow him a monthly salary as contemplated by the

Select Committee. The principle appears to me retrogressive to seek on one side Local Self-Government, and a non-official President or Vice-President and in the same strain to provide for his salary. I therefore beg to differ from the view of my learned colleagues and propose the deletion of the words '*monthly salary*' in the substantive clause with the view that a non-official President or Vice-President should not claim any salary.

(2) In clause 6 of the Bill, the Select Committee propose that "the Government may, *with the consent of the Municipal* Council, transfer to such Council, the management of any institution not otherwise provided for by this Regulation; (These institutions are enumerated as the control of elementary education, medical relief, Muzrai Institutions, etc., in the objects and reasons appended to the Bill) provided that the funds necessary for such management shall be placed at the disposal of the Municipal Council by the Government.".

The Bangalore City Municipal Council, which is the largest of its kind in Mysore, has not provided more than about five thousand rupees annually in the budget till now for education; out of which about two and half thousand rupees is spent on two Lower Secondary Schools insufficiently manned and unsatisfactorily worked. Out of the balance, a large sum is spent as contribution to libraries and the balance alone is now given in the shape of grant-in-aid to a few Primary Schools without a building of their own. The Mysore City Municipal Council is in this respect slightly better while the Municipalities of the other District Towns now contribute very little and almost the whole of the cost of Primary Education in these areas is met out of Provincial Funds. The proviso that the Government should seek the consent of the Municipal Council, after providing Government Funds necessary for such management to the Municipal Council, to undertake the control of elementary education, Muzrai, and other institutions, when such councils are not really serious, in undertaking the management of such institutions in their Municipal areas, as agents of Government, and not with any idea of responsibility, is in my opinion, too forward a step to be contemplated at a time, when it is feared that this clause will in all probability lie a dead letter for many years to come.

(3) *Clause 7.* I have the honour to submit that the original Bill proposed to raise the rate of taxes on buildings, from 6 per cent. to 8½ per cent. on the annual rental value. But though clause 10 of Section 59, provides for profession tax and does not provide for a shop tax (a higher rate of taxation than the house tax), the Municipal Councils in Mysore have successfully combated the levy of the profession tax from 1906 to 1917; and the shop tax is equally successfully levied without a provision in the Regulation. The abolition of the shop tax and the levy of the profession tax, recommended by the Select Committee are really steps to equalise taxation amongst the people, and I fully agree with the view of the Select Committee.

(4) I agree with clauses 8 and 9 of the Select Committee's report. Clause 9 is a power in the hands of Government, which, after the working of the Regulation for a few years, will in all probability substantiate my pessimism, remarked as such by the Second Member of Council on the 29th of June last, during the discussion of this Bill, and this was the unanimous opinion of the Select Committee.

(5) In proviso to sub-section of Section 10, the amendment Bill and the report of the Select Committee, propose to raise the elective element amongst the non-official Municipal Councillors to two-thirds, one-half and one-third in the City, Town and Minor Municipal Councils, respectively.

(*a*) In my remarks during the discussion of the Municipal Bill in this Council, on the 29th June, and during the stage of the Select Committee, I have fairly sufficiently advanced my reasons for communal representation. It would be pertinent to remark that the Bangalore City Municipal Council, the largest of such Councils in Mysore, has, in its special meetings during the first week of this month, adopted the principle of communal and separate representation, for Hindus, Mussalmans and Christians as in Bangalore Civil and Military Station Municipality and that Council is also of opinion that election for these communal bodies is a better course of selection of candidates than the present principle of nomination. The ward system of election has not worked well, anywhere in southern India, and if

the Bangalore City Municipal Council has resolved to have a communal representation of Hindus, Mahomedans and Christians, I fail to understand the force of their judgment, in trying to have one representation for all Hindus, who consist of different large communities diversified in interest, where most of whom require a stronger representation in the Municipal Councils, than certain advanced interests.

(*b*) I will now consider the population of the chief communities in the Province. The Mussalmans number 3,14,000. The depressed classes number 11,50,000. The miscellaneous group of Jains, etc., have about 40,000. The Europeans, Eurasians, Jews and Native Christians form a population of nearly 50,000. The Brahmans who form the cultured and advanced class have a population of 1,94,000. The Kshtriyas and Vaisya community have a population of nearly 66,000. The Lingayets have a population of 7,29,000; the Vokkaligars are 13,31,000; and all other Hindu communities number about 18 lakhs of people forming a total population of about 58 lakhs in the State. We have rate-payers in every class or group of classes. Though in all Municipal areas there is a fairly proportionate population of all these communities, who are also rate-payers in the Municipal areas of Bangalore and Mysore Cities, a few communal interests may be slightly larger, than the average ratio in the other Municipal towns. But when we come to the representation of the non-official members of the chief Municipal Councils in Mysore, which I cannot get from the Secretary to Government, I beg to submit the following figures subject to correction, which will show how far our Chief Municipal Councils do represent the different sections, opinion and the interest of the different communities in those areas, amongst the non-official members of such Councils, during the year 1917.

(*c*) Non-official representation of classes in the Bangalore and Mysore City Municipalities in 1917.

Total ...	44	9	10	3	6	...	11	5	88	19 of class 1 nominated.

(*e*) There is absolutely no representation of the depressed classes group and there is only one Jain and the other Hindus put as a whole, with the largest

population in columns 2, 3, 4, 5 and 6 have proportionately small number when compared with column No. 1. From the above it will be seen that in the two City Municipal Councils there are 25 non-official members of one community for a total strength of 48 members out of whom 13 are other Hindus. In the 7 Town Councils there are 44 members of the same community out of a total strength of 88 non-official members and 19 members out of that community are nominated members; there are only 28 other Hindu Councillors.

It will also be seen that when most of the official members belong to the advanced community in which community we find also a preponderance of non-official members, the effect of other communal representation as it stands is rendered helpless, even assuming against probability that all the other communities are of one opinion on any question.

Another feature of the question is the power of Government to nominate men to represent, as is said, minorities but actually the majority of the population and practically the unrepresented interests on the recommendation of the Executive. If the view of the Select Committee to raise the proportion of elective element as now practised is to be adopted, the result is that even the little scope left for nomination of unrepresented interests will be still more minimised to render such representation still more helpless, unless communal representation on the numerical strength of groups of communities is adopted as a guide in the body of the Regulation, the proportion of any particular interest to the strength of the total non-official bodies is fixed as not more than one-sixth of that body of groups of communities as pointed out *supra*. The resolution of the Bangalore City Municipal Council restricts communal representation only to the Mussalman and Christian communities thereby treating all the other Hindu communities as one. This would be doing great injustice to the communities mentioned in columns 2, 3, 4, 5 and 6 of the table appended. In this view I beg to dissent most respectfully on this part of the Bill, from the view of my learned colleagues in the Select Committee as the scope of the amendment will not in practice be to associate the people more largely with the administration of local affairs as enunciated with the Local Self-Government Order of November 1916, but will be just the other way.

M. BASAVA IYA.
